Red E Vault

Built to last the Red E Vault storage device is made to withstand a harsh work environment.

The Red E Vault data storage device solution allows mould owners to securely store and manage mold data, manuals, repair logs, drawings, and schedules directly on the mould and also allows the data to be made available to as many or as few people as possible via an easy to use permissions system and military grade encryption.

The Red E Vault flash drive allows on-asset data storage via the Red E Vault data storage device software. This software allows you to protect and organize your data effectively from your Microsoft Windows computer.

Benefits:
- On-Mold Or Online,
- Your Data
- Where You Need It
- When You Need It
- 8GB Memory
- Indestructible Case
- Password Protected
